### ESTABLISHMENT OF THE MONETARY UNIT

2. (1) The standard unit of monetary value in Sri Lanka shall be the Sri Lanka rupee, which shall be represented by the signs "Re." and "Rs."

The unit of  
 monetary value.

(2) The Sri Lanka rupee shall be divided into one hundred units each of which shall be called a "cent".

3. (1) The Monetary Board shall by unanimous decision, recommend to the Minister in charge of the subject of Finance that the par value of the Sri Lanka rupee be determined in terms of special drawing rights or in terms of such other common denominator as may be prescribed by the International Monetary Fund, and upon such recommendation, the Minister in charge of the subject of Finance shall, by Order published in the Gazette, determine and declare the par value of the Sri Lanka rupee in accordance with the terms specified in such recommendation:

The par value  
 of the rupee  
 (§.8, Law 10 of  
 1978)

Provided, however, that if the Monetary Board is of the view that international economic conditions do not warrant the introduction or maintenance of exchange arrangements based on stable but adjustable par values, it may, by unanimous decision, recommend to the Minister in charge of the subject of Finance that no determination be made under the preceding provisions of this section or that any Order made under this section be revoked, and upon any such recommendation, the Minister in charge of the subject of Finance shall desist from making an Order under this section, or, as the case may be, revoke an Order made under this section.

(2) The Monetary Board may by unanimous decision recommend to the Minister in charge of the subject of Finance the alteration of the par value of the Sri Lanka rupee, if the Board is of the opinion that such alteration of the par value of the Sri Lanka rupee is rendered necessary in any of the following circumstances, that is to say-

- (a) if the continuance of the existing par value hinders or is likely to hinder unduly, the achievement and maintenance of a high level of production, employment and real income and the full development of the productive resources of Sri Lanka, or results, or is likely to result, in a serious decline in the International Reserve of the Central Bank or in other utilizable external assets of Sri Lanka or if such decline cannot be prevented except by-
  - (i) a large scale increase in the external liabilities of Sri Lanka;
  - (ii) the persistent use of restrictions on the convertibility of the rupee into foreign currencies in settlement of current transactions; or
  - (iii) undue or sustained Government assistance to one or more of the major export industries; or
  - (iv) prolonged use of measures designed to restrict the volume of imports of essential commodities; or
- (b) if the maintenance of the existing par value is producing, or is likely to produce, a persisting surplus in the balance of payments on current account and a monetary disequilibrium which cannot be adequately corrected by other Government or by Central Bank action authorised by this Act; or
- (c) if uniform proportionate changes in the par values of currencies of its members are made by the International Monetary Fund,

and upon such recommendation, the Minister in charge of the subject of Finance may, by Order published in the Gazette, amend, in accordance with the terms specified in such recommendation, any Order made under subsection (1).

(3) Any Order made under subsection (1) or subsection (2) shall cease to have effect after a period of ten days from the date of publication thereof, unless such Order is approved by Parliament within that period:

Provided however, that if Parliament is not in session on the date of publication of the Order, the Order shall cease to have effect after a period of ten days from the date of the next meeting of Parliament, unless such Order is approved by Parliament within that period.

4. (1) Every obligation of the following description, that is to say, every contract, sale, payment, bill, note, instrument, and security for money, and every transaction, dealing, matter, and thing whatsoever relating to money, or involving the payment of money or the liability to pay any money, shall, in the absence of an express agreement to the contrary which is not rendered invalid or unlawful by any other written law, be held to be made, executed, entered into, done, and had in Sri Lanka according to the Sri Lanka rupee.

The use  
of the rupee

(2) In any case where any such obligation which is by agreement expressed in any monetary unit other than the Sri Lanka rupee has, by reason that such agreement is rendered invalid or unlawful by any other written law, to be executed or liquidated in Sri Lanka rupees, the necessary conversions shall be effected on the basis of the legal parties ruling at the time when such obligation falls to be executed or liquidated, or at such other time as may be specified in that behalf in the agreement.

**62.** For the purposes of this Act, "the money supply" means all currency and demand deposits owned by persons other than commercial banks or the Government.

Definition of "the money supply"

### CHAPTER IV

## THE CENTRAL BANK AND NATIONAL MONETARY POLICY

#### PART I-DOEMSTIC MONETARY STABILIZATION

**63.** (1 ) The Monetary Board shall endeavour so to regulate the supply, availability, and cost of money as to secure, so far as possible by action authorised by this Act, the objects mentioned in section 5; and shall for such purpose have regard to the monetary needs of particular sectors of the economy as well as of the economy as a whole.

Principles governing determination of domestic monetary policy.

(2) In determining its domestic monetary policies the Monetary Board shall especially consider their effects on Sri Lanka's international financial position as evidenced by the relation of domestic to world prices and costs, by the level and composition of exports and imports, by the international balance of payments, and, ultimately, by the ability of the Central Bank to maintain the international stability of the Sri Lanka rupee and its free convertibility for current international transactions.

**64.** (1 ) Whenever the Monetary Board anticipates economic disturbances that are likely to threaten domestic monetary stability in Sri Lanka or whenever abnormal movements in the money supply or in the price level are actually endangering such stability, it shall be the duty of the board -

Action to preserve domestic monetary stability

- (a) to adopt such policies, and to cause such remedial measures to be taken, as are appropriate in the circumstances and authorised by this Act;
- (b) to submit to the Minister in charge of the subject of Finance and, if not prejudicial to the public interest, make public, a detailed report which shall include, as a minimum, an analysis of -
  - (i) the causes of the anticipated economic disturbances, or of the actual abnormal movements of the money supply or the price level;

- (ii) the probable effects of such disturbances or movements on the level of production, employment, and real income in Sri Lanka; and
- (iii) the measures which the Monetary Board has already taken, and the further monetary, fiscal, or administrative measures which it proposes to take or recommends for adoption by the Government.

(2) Without prejudice to the generality of the provisions of subsection (1), it shall be the duty of the Monetary Board to submit a report in terms of paragraph (b) of that subsection if at the end of any month the board finds that the amount of the money supply has increased or decreased by more than fifteen *per centum*, or the cost of living index has increased by more than ten *per centum*, of its level at the end of the corresponding month in the preceding year.

(3) The Monetary Board shall continue to submit further reports periodically so long as the circumstances which occasioned the submission of the first report constitute a threat to domestic monetary stability.

#### PART II-INTERNATIONAL MONETARY STABILIZATION

Principles governing determination of international monetary policy. [§.8, Law 10 of 1978]

**65.** In determining its international monetary policy the Monetary Board shall endeavour to maintain the par value of the Sri Lanka rupee, or where no determination of such par value has been made under section 3, maintain such exchange arrangements as are consistent with the underlying trends in the country and so relate its exchange with other currencies as to assure its free use for current international transactions.

International Reserve.

**66.** (1 ) In order to maintain the international stability of the Sri Lanka rupee and to assure the greatest possible freedom of its current international transactions, the Monetary Board shall endeavour to maintain among the assets of the Central Bank an international reserve adequate to meet any foreseeable deficits in the international balance of payments.

[§.8, Law 10 of 1978]

(2) In judging the adequacy of the International Reserve, the Monetary Board shall be guided by the estimates of prospective receipts and payments of foreign exchange by Sri Lanka; by the volume and maturity of the Central Bank's own liabilities in foreign currencies; and, in so far as they are known or can be estimated, by the volume and maturity of the foreign exchange assets and liabilities of the Government and of banking institutions and other persons in Sri Lanka. So long as any part of the foreign currency assets of Sri Lanka are held in currencies which are not freely convertible by the Central Bank, whether directly or indirectly, into special drawing rights or such other common denominator prescribed by the International Monetary Fund or into foreign currencies freely usable in international transactions, or are frozen, the Monetary

Board shall also take this factor into account in judging the adequacy of the International Reserve of the Central Bank.

**67.** (1) The International Reserve of the Central Bank may include the following assets :-

Composition of  
International  
Reserve  
[§.7, 2 of 1969]

(i) gold;

(ii) assets in foreign currencies in the form of -

(a) documents and instruments of types customarily employed for the international transfer of funds; or

(b) demand and the time deposits in central banks, treasuries, and commercial banks abroad; or

(c) securities of foreign Governments; or

(d) foreign notes and coins; and

[§.7,2 of 1969]

(iii) either the whole, or such maximum percentage of the whole, of the holdings of such drawing rights in the Special Drawing Rights Department in the International Monetary Fund according as may be determined from time to time by the Monetary Board.

[§.7,2 of 1969]

[§.8, Law 10 of  
1978]

(2) The Monetary Board shall endeavour to hold at least a nuclear reserve in gold or currencies freely convertible by the Central Bank, whether directly or indirectly, into gold. The board shall particularly consider the prospects of stability and convertibility of all of the currencies in the International Reserve as well as the anticipated demand for such currencies.

**68.** (1) Whenever the Monetary Board anticipates that there may develop a deficit in the international balance of payments of such magnitude as to cause a serious decline in the International Reserve, or whenever there is an imminent threat of a serious decline in the International Reserve, or whenever the International Reserve actually falls to a level which the board considers to be a threat to the international stability of the Sri Lanka rupee, or whenever international payments or remittances are being made which in the opinion of the board constitute an actual or a potential threat to such stability or are prejudicial to the national welfare, it shall be the duty of the board -

Action to  
preserve the  
international  
stability of the  
rupee.

(a) to adopt such policies, and to cause such remedial measures to be taken, as are appropriate to the circumstances and authorised by this Act, and

(b) to submit to the Minister in charge of the subject of Finance a detailed report which shall include, as a minimum, an analysis of -

Dealings in  
gold

(i) the nature, causes, and magnitude of the actual or potential threat to the international stability of the Sri Lanka rupee; and

(ii) the measures which the board has already taken, and the further monetary, fiscal or administrative measures which it proposes to take or recommends for adoption by the Government.

(2) The Monetary Board shall submit further periodical reports to the Minister in charge of the subject of Finance until the threat to the international stability of the rupee has disappeared.

[S.8, Law 10 of 1975]

Provided that nothing in the preceding provisions of this subsection shall require the Central Bank to purchase foreign exchange in any currency which is not freely convertible by the bank, whether directly or indirectly, into special drawing rights or such other common denominator prescribed by the International Monetary Fund or into foreign currencies freely usable in international transactions, unless, in the opinion of the Monetary Board, there is an adequate demand, actual or anticipated, for such currency for the purpose of making payments for current international transactions, or unless the Monetary Board, with the concurrence of the Minister in charge of the subject of Finance, makes a determination that the acquisition of such currency is in the national interest.

(2) Notwithstanding anything in subsection (1), the Monetary Board may by unanimous decision and with the approval of the Minister in charge of the subject of Finance temporarily suspend or restrict sales of foreign exchange by the Central Bank in any case where such action is considered necessary in order to conserve the International Reserve of the Central Bank during any period of crisis affecting exchange.

**73.** (1) The Governor shall determine and certify the parities with respect to the Sri Lanka rupee of foreign currencies ordinarily required for the international transactions of Sri Lanka. Parities so determined and certified shall be published in the Gazette, and shall be recognized as the legal parities for all purposes. The Governor may in addition certify the parity of any foreign currency not included in the published list of parities.

Parities of foreign currencies with respect to the rupee.

(2) The Governor may at any time desist from certifying or publishing the parity of any foreign currency if the exchange rates for that currency in international markets are unstable or widely divergent.

- (a) The currency of a country which is a member of the International Monetary Fund shall have its parity with respect to the rupee established on the basis of its par value as agreed with the fund in every case where the country is permitting exchange transactions between its currency and the currencies of other members only within

the maximum and the minimum rates prescribed in the International Monetary Fund Agreement for such transactions. In any other case, or if the par value of the currency of a member country has not been agreed with the fund, the parity of such currency with respect to the rupee may be calculated on the basis of the exchange rates for that currency in the international markets; and if there is divergence among the rates quoted in the international markets, the Governor may determine which rates to use for the determination of parity.

[§.8, Law 10 of 1978]

(b) The currency of a country which is not a member of the International Monetary Fund shall have its parity with the rupee calculated on the basis of the exchange rates for the currency in international markets; and if there is divergence among the rates quoted in international markets the Governor may determine which rates shall be used for the determination of the parity.

**74.** (1) The Monetary Board shall from time to time determine the rates at which the Central Bank will buy and sell foreign exchange.

(2) The rates determined under subsection (1 ) for spot transactions shall not differ by more than four and one-half *per centum* from the legal parities determined under section 73, except in the case of the rates for purchases and sales of foreign notes and coins, in which case the Board may have regard to the additional costs of, or incidental to, such transactions.

(3) The rates determined under subsection (1 ) for transactions other than spot transactions shall not differ from the corresponding rates for spot transactions, except in so far as is necessary to reimburse the bank for the additional costs, expenses, or risks of each type of transaction.

(4) The Central Bank shall not accept any commission or impose any charge of any description in respect of the purchase or sale of foreign exchange, except telegraphic or other costs actually incurred in connection with such purchase or sale.

(5) The provisions of subsections (2) and (3) shall not apply at any time during which the sales of foreign exchange by the Central Bank are restricted under section 72.

Loans to and from foreign institution, &c.

**75.** (1 ) The Central Bank may grant loans to, or take loans from, any institution of any description referred to in paragraphs (c), (d) and (e) of subsection (2) of section 71 and may engage in such other transactions with such institutions as are expedient or desirable in the public interest

and are appropriate having regard to the character of the bank as a Central Bank.

The Central Bank may act as agent or correspondent of any such institution other than a foreign commercial bank.

(2) Any loan taken as provided in subsection (1) may be secured by gold or other assets held by the Central Bank.

**PART II- REGULATION OF FOREIGN EXCHANGE OPERATIONS OF  
COMMERCIAL BANKS**

**76.** (1) The Monetary Board shall determine the minimum rate at which commercial banks may buy spot exchange and the minimum rate at which they may sell spot exchange. Where the Monetary Board has certified the legal parity of a currency in accordance with section 73, the maximum and minimum exchange rates established for such currency shall not differ from such parity by more than four and one-half *per centum*.

Rates applicable to purchases and sale of exchange by commercial banks.

[§8, 10 of 1978]

(2) No commercial bank shall buy spot exchange at any rate below the minimum rate determined under subsection (1) or sell spot exchange at any rate exceeding the maximum rate so determined; and no commercial bank shall in respect of any purchase or sale of such exchange accept any commission or impose any charge of any description except telegraphic or other costs actually incurred in connection with such purchase or sale.

(3) No commercial bank shall carry out any transaction in exchange, not being a spot transaction, at any rate which differs from the rate determined under subsection (1) for a spot transaction -

(a) by a margin greater than is reasonable having regard to the additional costs, expenses or risks of the transaction; or

(b) by such margin, if any, as may be prescribed in that behalf by the Monetary Board.

(4) The preceding provisions of this section shall not apply at any time during which the sales of foreign exchange by the Central Bank are suspended or restricted under section 72.

**76A.** (1) Where the Governor is of opinion that it is inexpedient to determine and certify, in accordance with section 73, the parities with respect to the Sri Lanka rupee of foreign currencies ordinarily required for the international transactions of Sri Lanka, he may, in lieu of determining and certifying such parities under that section, determine the rates at which the Central Bank may buy and sell spot foreign exchange.

Exchange rate for Central Bank and commercial bank transactions where parities of foreign

currencies are  
not determined.  
[§.2, 16 of  
1977]

(2) Where the Governor determines, under subsection (1), the rates at which the Central Bank may buy and sell spot foreign exchange, the provisions of sections 73, 74 and 76 shall cease to have any force or effect in law, and the following provisions shall apply upon such determination :-

- (a) Such determination may be limited to such foreign currencies as the Governor may deem appropriate.
- (b) The rates determined under subsection (1) shall not apply in the case of the purchases and sales of foreign notes and coins, in which case the Central Bank may have regard to the additional costs of, or incidental to, such purchases and sales.
- (c) The rates for transactions other than spot transactions shall not differ from the rates determined under subsection (1), except in so far as it is necessary to reimburse the Central Bank for the additional costs, expenses or risks of each type of transaction.
- (d) The Central Bank shall not accept any commission or impose any charge of any description in respect of the purchase or sale of foreign exchange, except the telegraphic or other costs actually incurred in connexion with such purchase or sale.
- (e) It shall be competent for the Governor to authorize, in writing, any officer by name or by office, to vary from time to time within such limits as may be specified by the Governor, the rates determined by the Governor under subsection (1).
- (f) Where the Governor makes no determination under subsection (1) with respect to any particular foreign currency, the Central Bank may buy and sell such currency at a rate calculated on the basis of the exchange rate for that currency in the international markets in relation to any foreign currency with respect to which the Governor has made a determination under subsection (1).
- (g) (i) Where the Governor determines under subsection (1) the rates at which the Central Bank may buy and sell spot foreign exchange, he may also determine the minimum rate at which any commercial bank may buy spot exchange and the maximum rate at which any commercial bank may sell spot exchange.  
(ii) In any case where the Central Bank buys or sells any

currency in the exercise of the authority granted by paragraph (f) any officer authorized in that behalf by the Governor by name or by office, may determine the minimum rate at which any commercial bank may buy spot exchange and the maximum rate at which any commercial bank may sell spot exchange.

- (iii) The provisions of paragraph (e) shall, *mutatis mutandis*, apply to, and in relation to, the minimum and maximum rates determined under this paragraph.
- (h) Where no determination is made under paragraph (g) with respect to any particular foreign currency, a commercial bank may buy, sell or carry out any transaction in such currency at rates calculated on the basis of the exchange rates for that currency in the international markets.
- (i) Where a determination is made under paragraph (g), as to the minimum and the maximum rates at which commercial banks may buy and sell spot exchange -
  - (i) no commercial bank shall buy spot exchange at any rate below the minimum rate determined under that paragraph or sell spot exchange at any rate exceeding the maximum rate so determined; and no commercial bank shall in respect of the purchase or sale of such exchange accept any commission or impose any charge of any description except telegraphic or other costs actually incurred in connection with such purchase or sale, and
  - (ii) no commercial bank shall carry out any transaction in exchange, not being a spot transaction, at any rate which differs from the rates determined under paragraph (g) by a margin greater than is reasonable having regard to the additional costs, expenses or risks of the transaction, or by such margin, if any, as may be prescribed in that behalf by the Governor.
- (j) A determination under paragraph (g), as to minimum and maximum rates shall have no application during any period in which the Monetary Board decides, under section 72, to suspend or restrict the sales of foreign exchange by the Central Bank.

**77. (1)** In order more effectively to control the use and disposition of the foreign exchange resources of Sri Lanka or in order to promote the domestic investment of the resources of commercial banks, the Monetary Board may from time to time fix, or prescribe the manner of

Control of foreign exchange holdings of commercial banks.

(2) The Monetary Board may, having regard to the special needs of any particular commercial bank, permit that bank to hold working balances in any specified foreign currency in excess of the maximum amount fixed or determined for such currency under subsection (1).

(3) In ascertaining whether the working balances of any commercial bank in any foreign currency are in excess of the maximum amount fixed or determined as herein before provided, there may be deducted from such balances the net liabilities of that bank in currencies into which the first-mentioned currency is freely convertible.

Requirements regarding currency position of commercial banks.

**78.** (1) The Monetary Board may direct that the proportion which the assets in Sri Lanka rupees of commercial banks in Sri Lanka bear to the liabilities in Sri Lanka rupees of such banks shall not be less than such proportion as the Monetary Board may prescribe, or may direct such banks to maintain a balanced position between their assets and liabilities in any currency or currencies in which they operate. The board shall allow to such banks a reasonable period of time in which to comply with any such direction.

(2) Any direction under subsection (1) shall be made applicable to all commercial banks without discrimination:

Provided, however, that the Monetary Board may give such a direction to any particular commercial bank in any case where, in the opinion of the board, such action is necessary in order to protect against possible loss to depositors and other creditors of the bank who are citizens of Sri Lanka or to companies or associations controlled by citizens of Sri Lanka.

Revaluation profits and losses on holdings of foreign exchange by banking institutions. [S. 8, Law 10 of 1978]

**79.** (1 ) Any revaluation profits realized or any revaluation losses incurred by banking institutions on their net assets and liabilities in foreign currencies freely convertible by the Central Bank, whether directly or indirectly, into special drawing rights or such other common denominator prescribed by the International Monetary Fund or into foreign currencies freely usable in foreign transactions and arising from changes in the par value of the Sri Lanka rupee or in the legal parities or in the Central Bank's exchange rates, of such currencies with respect to the Sri Lanka rupee, shall be assumed in their entirety by the Central Bank and shall be debited or credited accordingly.

(2) (a) If the Monetary Board so declares, the provisions of subsection (1 ) shall apply in relation to revaluation profits realized or

revaluation losses incurred by banking institutions on their net assets or liabilities in any specified foreign currency which is not freely convertible by the Central Bank, whether directly or indirectly, into gold.

(b) Any such declaration shall have effect until it is revoked by the board. Notice of the date on which any such declaration will be revoked shall be given to banking institutions not less than eight days before the proposed date of revocation.

(c) During the period commencing on the date of the notice referred to in paragraph (b) and ending on the date of revocation of the declaration to which it relates, every banking institution shall comply with such directions, if any, as may be given by the Monetary Board for the purpose of preventing banking institutions from increasing their holdings of the currency to which the declaration relates.

(3) Where in consequence of a determination made under subsection (1) of section 76A, the provisions of sections 73, 74 and 76 cease to be of any force or effect, the provisions of subsections (1) and (2) of this section shall also cease to be of any force or effect, and accordingly, the Central Bank shall not assume any revaluation profits realised or revaluation losses incurred by any banking institution.

[S3, Law 16 of 1977]

**80.** (1) Every commercial bank shall, as soon as may be after the close of business at the end of such period as may be prescribed by the Monetary Board, make a report to the Central Bank setting out the volume and composition of its purchases and sales of foreign exchange during that period, and shall furnish such additional information as the Central Bank may require with reference to such purchases and sales and to the movements of its accounts in foreign currencies.

Information on exchange operations.

(2) The Monetary Board may also require any other person to make reports to the Central Bank at specified times or intervals as to all transactions or operations in gold, in any shape or form, and in foreign exchange.

(3) Every report under this section shall be in such of the appropriate forms as the Monetary Board may prescribe for the purpose.

(4) The Director of Bank Supervision may make such inspection or examination of the books and accounts kept by any commercial bank or other person as he may deem necessary for the purpose of verifying the accuracy of any statement set out in any report made by such commercial bank or person.

**81.** Whenever there is in progress an inward or outward movement of capital which in the opinion of the Monetary Board is actually endangering, or threatening to endanger, the domestic or international

Capital movements

stability of the Sri Lanka rupee, it shall be the duty of the board to take such action as is appropriate under section 64 or section 68.

### PART III-CREDIT OPERATIONS WITH BANKING INSTITUTIONS

Principles governing credit operations.

**82.** (1) The Central Bank shall exercise the authority conferred by this Part of this Act to carry out the national monetary policy by regulating the supply, availability, cost, and character of credit and by providing the banking system with liquid funds in times of need.

(2) If the Monetary Board determines that it is necessary so to do by reason that, in the opinion of the board, there is in progress, or has occurred, an expansion of the money supply that represents a threat to the domestic or international monetary stability of Sri Lanka, the board shall direct the suspension of the grant of credit by the Central Bank to banking institutions, except when the board, having regard to the special circumstances, by unanimous decision approves the grant of credit.

#### PART V-OPEN MARKET OPERATIONS

Principles governing open-market operations.

**90.** (1 ) The Central Bank shall so exercise the authority conferred by this Part of this Act to conduct open-market operations as to secure any of the following purposes, that is to say :-

- (a) to increase the liquidity or stabilize the values of the securities referred to in section 91 in order thereby to promote private investment in such securities; and to prevent or moderate sharp fluctuations in the quotations of such securities, so, however, as not to alter fundamentally movements in the market resulting from basic changes in the pattern or level of interest rates;
- (b) to increase or decrease the supply, availability, and cost of money, in accordance with the national monetary policy as determined by the Monetary Board.

(2) In conducting open-market operations in Government securities, the Central Bank shall have regard to the need for maintaining adequate holdings of short-term securities in order to enable the bank more readily to contract its credit if such contraction becomes necessary.

(3) If the Monetary Board determines that it is necessary so to do by reason that, in the opinion of the board, there is in progress, or has occurred, an expansion of the money supply or of bank reserves that represents a threat to the domestic or international monetary stability of Sri Lanka, the board shall take action to secure -

- (a) that purchases of rupee securities in the open market by the Central Bank are suspended, except in special circumstances where the board by unanimous decision determines that such purchases are necessary in the public interest; and

#### PART VI-REGULATION OF THE RESERVES OF COMMERCIAL BANKS

**93.** (1) The Monetary Board shall, in order to limit the volume of money created by the credit operations of the banking system, require commercial banks operating in Sri Lanka to maintain reserves against their deposit liabilities, and shall for such purpose define the classes of deposit liabilities against which reserves shall be held.

Reserve requirements

(2) The reserves required to be held by any commercial bank shall be proportional to the volume of its deposit liabilities and shall ordinarily take the form of rupee deposits in the Central Bank:

Provided that the Monetary Board may in its discretion permit the maintenance of any part of the required reserves in the form of assets other than rupee deposits in the Central Bank.

**94.** (1) The Monetary Board shall prescribe, and may from time to time modify, the reserve ratios applicable to each class of deposit liabilities. The ratios so prescribed shall not be less than five *per centum* or more than twenty *per centum* in the case of time and savings deposits, and shall not be less than ten *per centum* or more than forty *per centum* in the case of demand deposits and unused balances of overdrafts allowed

(2) Any increase of the reserve ratio which is to be applicable in respect of any existing liability shall be made by the board in a gradual manner and shall not exceed four percentage points in any one period of thirty days. The board shall, except in extraordinary circumstances, endeavour to give the commercial banks at least fourteen days' notice of the date on which any such increase is to become effective.

**95.** (1) Notwithstanding anything in section 94, the Monetary Board may, during periods of inflation or when inflation is anticipated,

Fixing of special high ratios in time of inflation

prescribe reserve ratios not exceeding one hundred *per centum* in respect of the amount by which any commercial bank's deposit liabilities of any class may, after the date on which notice is given to that bank of the fixing of the new reserve ratio, exceed the amount of such deposit liabilities of that bank on that date.

(2) In any case where any commercial bank is required, by reason of the exercise of the powers conferred on the Monetary Board by subsection (1), to maintain a minimum reserve against any class of deposit liabilities of an amount exceeding the maximum amount specified in section 94(1) for that class of deposit liabilities, the Central Bank shall pay to that bank interest on the amount in excess at a rate not higher than the Central Bank's lowest discount rate for the time being in operation.

Computation of required reserves.

**96.** The required reserves of each commercial bank shall be calculated weekly on the basis of the amount, at the close of business on such day of each week as may be prescribed by the Monetary Board, of its deposit liabilities against which reserves are required to be maintained.

In the computation of the required reserves of a commercial bank, its principal office in Sri Lanka and all its branches and agencies in Sri Lanka shall be considered together as one unit.

Payment of interest on deficiency in the reserves of commercial banks [S.15, 52 of 1985]

**97.** (1) Whenever the reserves of any commercial bank are below the required reserves computed in the manner provided, in section 96, the bank shall within such time as may be prescribed by the Monetary Board pay to the Central Bank interest on the amount of the deficiency at such rate not exceeding one-tenth of one *per centum* per day, as may be prescribed by the Monetary Board:

Provided however, that a commercial bank shall not be required to pay interest in respect of any deficiency in reserves, occurring on one or more days of a week, if the aggregate of the amount lying to the credit of such commercial bank with the Central Bank at the close of business on each of the seven days of that week is not less than the aggregate of the reserves which the commercial bank ought to have maintained on each of the seven days of the same week as a minimum for compliance with the foregoing section. Where the former aggregate is less than the latter aggregate, interest at the rate prescribed by the Monetary Board shall be paid on the deficiency which shall be a sum equal to one-seventh of the difference of such two aggregates (any fraction of a cent not being taken into account) and interest on the deficiency so computed shall be paid on the basis that such deficiency has occurred on each of the seven days of the week and such payment shall be sufficient compliance with the provisions of this subsection.

(2) Where any bank continuously fails to maintain the required reserves, the Monetary Board may make order -

(a) that the proviso to subsection (1 ) shall not apply to that bank;

(b) (i) prohibiting or restricting the making of new loans or investments by that bank; and

(ii) prohibiting the application of the whole or any specified part of the net profit of that bank for the purpose of the payment of a dividend to its shareholders.

requirements  
against letters  
of credit.

**103.** The Monetary Board may by order direct that letters of credit shall not be opened by commercial banks unless such letters are covered by minimum margins of such kind, amount, or proportion as may be prescribed by the board; different margins may be so prescribed for different classes of transactions to be financed by means of letters of credit.

Fixing of  
interest rates,  
commissions  
and charges.

(2) Subject as hereinafter provided, the maximum rate of interest fixed by order under subsection (1 ) shall apply in relation to any deposit, or to any loan or credit operation, as the case may be, completed before the date on which the order comes into force:

Provided, however, that nothing in any such order -

(a) shall apply in relation to any interest accrued before that date; or

(b) shall require or be deemed to require the reduction of the rate of interest payable upon any deposit completed before the date if such reduction would constitute a breach of the contract or agreement relating to such deposit.

(3) For the purposes of preventing evasion of any order made under subsection (1), the Monetary Board may from time to time prescribe the maximum rates which may be paid to or charged by commercial banks in the form of commissions, discounts, fees or other payments whatsoever.

**105.** The Monetary Board may declare that credit instruments held by banking institutions will not be accepted for discount or rediscount by, or advances from, the Central bank, if the interest rates charged by such institutions in respect of the loans or other credit operations to which such instruments relate exceed the interest or rediscount rates of the Central Bank by more than such percentage or margin as may from time to time be prescribed by the board.
